

# Profi-Line Plasma

## CNC Plasma Cutting

### Professional compact plasma cutting system CNC CUT PRO

The system is a fast and precise motorized, space-saving and easy-to-handle model with double-sided AC servo motors, THC and 25 mm spiral linear guides and rack and pinion system for high-precision cutting.

With its robust, modular design, CNC CUT Kompakt PRO offers users many advantages with functions such as needle marking and High Performance Plasma, High Speed Plasma and air plasma from Thermal Dynamics®, for example. The CNC CUT Kompakt offers ideal cutting solutions for small and medium-sized companies.

Scope of delivery ECO-CUT PRO  
Incl. Software:  
- ECP1000 EUROSOFT (see page 52-53)

Model	CNC CUT KOMPAKT PRO 1530
Machine dimension (LxWxH) mm	2650x4400x2150
Effective cutting range	1650x3150 mm
Weight	3650 kg
