

Turnrollers

Support Block TR-2000

Useful and versatile

The Turnrollers of the TR series, it is very easy to position containers and pipes with a diameter of 80 mm to 2200 mm and to weld circumferential seams. Due to the low initial costs, the purchase pays for itself in a very short time. With the help of a torch stand, the welding process can be further simplified and the welder can concentrate exclusively on controlling the welding process.
