Welding Inverter MIG-200P LCD

Multiprocess Welding Machine with Pulse & Double-Pulse Function

NOW WITH NEW DESIGN

MIG/MAG Welding Inverter MIG-200P - Now in a new design!
The proven MIG 200 IGBT has a successor: The JAVAC MIG-200P combines performance, precision, and maximum user-friendliness thanks to a digital color display and optimized synergic control. Ideal for trade, workshops, and professionals.

Features

- Multifunctional: Supports DC MIG/MAG, Pulse, Double Pulse, Lift-TIG, and MMA (Electrode).
- Aluminum Specialist: The double-pulse function ensures distortion-free welding with a clean, TIG-like ripple appearance.
- Easy Operation: Intuitive synergic one-button control with automatic parameter selection and a clear LCD color display.
- Flexible & Powerful: Spool-gun compatible and equipped with modern IGBT inverter technology for high efficiency at a low weight.

Model	MIG 200P LCD		
Supply voltage	Single-phase, 220±10% ±15%		
Rated input power	8,5	6,4	8,7
Rated input current	39	29	40
Output current range	30 ~ 200 A	10 ~ 200 A	10~200 A
Function	MIG	TIG	MMA
Duty cycle (40°C 10 min.)	30% 200A 60% 141A 100% 110A	30% 200A 60% 141A 100% 110A	30% 200A 60% 141A 100% 110A
No-load voltage	64	1-25	64
Efficiency (%)	84,3%	81,7%	84,9%
Wire feed / Wire feed speed	extern/intern		
Power Faktor	0,66	0,64	0,67
Welding wire diameter (mm)	0,8 - 0,9 -1,0 - 1,2		Ø 2,5, Ø 3,25, Ø 4,0
Dimensions (L x W x H) mm	495x210x330		
Weight	12 kg		
Insulation class	H		
Protection class	IP21S		
Item number	02.01.20.02022		

Scope of delivery:
1 MIG torch UF 15/3 m
1 Earth cable 2.5 m
1 Electrode cable 2.5 m
